UNATTENDED SAFE & SECURE  
LOCKERS AT THE BEACH

**MOBILE LOCKER®**  
YOUR HI-TECH LOCKER SOLUTION

**MOBILE LOCKER®** is a hi-tech company that invented a fully automated off-grid locker system which can be used in numerous applications all around the world.

Wherever our lockers are installed, users can safely do any sport or leisure activity, carefree. The system allows them to access the purchased or acquired locker all day long and enjoy high speed WIFI in the vicinity of the unit. The unit is vandal-proof, mobile, custom made of high grade material, offers unique and user friendly software and is powered by green energy.

## SMART LOCKERS AT THE BEACH

- Most digitalized locker platform in Europe
- OFF or ON grid
- Completely autonomous
- Plug & play
- Compatible with any available technology
- Premium quality – Made in Belgium
- 24/24 7/7 operational
- Vandal-proof
- Cross marketing options

## SOLAR POWERED & CHARGING

A clean beach, with clean energy. Mobile Locker has designed **an automated locker unit, running on solar power**, that allows users to charge their mobile device while enjoying the beach or a carefree swim.

SOLAR  
POWERED

The solar power upgrade ensures power independency, freedom of installation and choice of back-up power up to 48 hours.

MOBILE  
CHARGING

## EASY TO TRANSPORT

Although our units come in different sizes we make sure they are built in such a way that they are easy movable and easy to transport on road and sea lanes. The plug and play mobile beach locker units can be installed in less than 30 minutes and you are ready to go.

Thanks to our unique Mobile Locker knowhow we are able to offer strong and robust units that are made of the finest alloy steel, allowing them to be moved numerous and at the same time remain in optimal condition.

## HIGHEST QUALITY HARDWARE

Our lockers are among the top in the industry. Metal thickness of at least 2,06mm, an all weather proof combination of advanced galvanisation techniques and powdercoated metal.

After years of testing and research we have turned our units into corrosion and all weather proof units. They are treated like in the petrochem industry to resist aggressive environments.

## INNOVATION, HI-TECH & SECURE

The innovative heart of our unit is our multifunctional terminal. It is a bankvault combined with hi-tech hardware that can interact through our API with 3rd party software.
